Noir  
*addictive Black*

Noir combines timeless elegance with modern design and innovation. Each switch in the Noir series features a sleek black finish that embodies luxury, sophistication, and timeless beauty, making them perfect for homes that prioritize both aesthetics and functionality.

Explore the  
beauty of  
*Black*

# Noir Luxury

The Noir Luxury switch is the pinnacle of switch design, redefining what a switch can be. Unparalleled in its exclusivity and innovation, the Noir Luxury switch boasts a design that is unlike anything else currently available in the market.

# Noir Arc

The Noir Arc switch takes design innovation to the next level. Featuring a subtle "arc" in the middle, this unique switch adds a distinctive touch to your interiors, setting it apart from conventional switches. The black color of the Noir Arc switch amplifies its modern and avant-garde design.

# Noir

Classy

The Noir Classy switch is the epitome of timeless elegance. Designed for the discerning homeowner, this classic switch seamlessly blends into any interior decor, adding a touch of sophistication to your living spaces. Its sleek black finish not only complements a variety of styles but also exudes a sense of luxury and refinement.

Noir  
*addictive Black*

Embrace the  
beauty of  
*Design*

## Devices

Noir features the best quality fan regulators, sockets, and other devices designed with the same elegance and innovation as the rest of the range. Featuring sleek black finishes, these accessories offer both functionality and style, seamlessly complementing the Noir switches to provide a cohesive and sophisticated electrical solution for any space.

The plates are made in high grade matte black finishing using proper heating process to make it a long lasting product

The inner frame is made using high quality polycarbonate, giving the switches a strong base. It can bear the extra stiffness & tight tolerance for mounting of modules. Useful when the products are put in sockets & the locks hold the socket modules strongly.

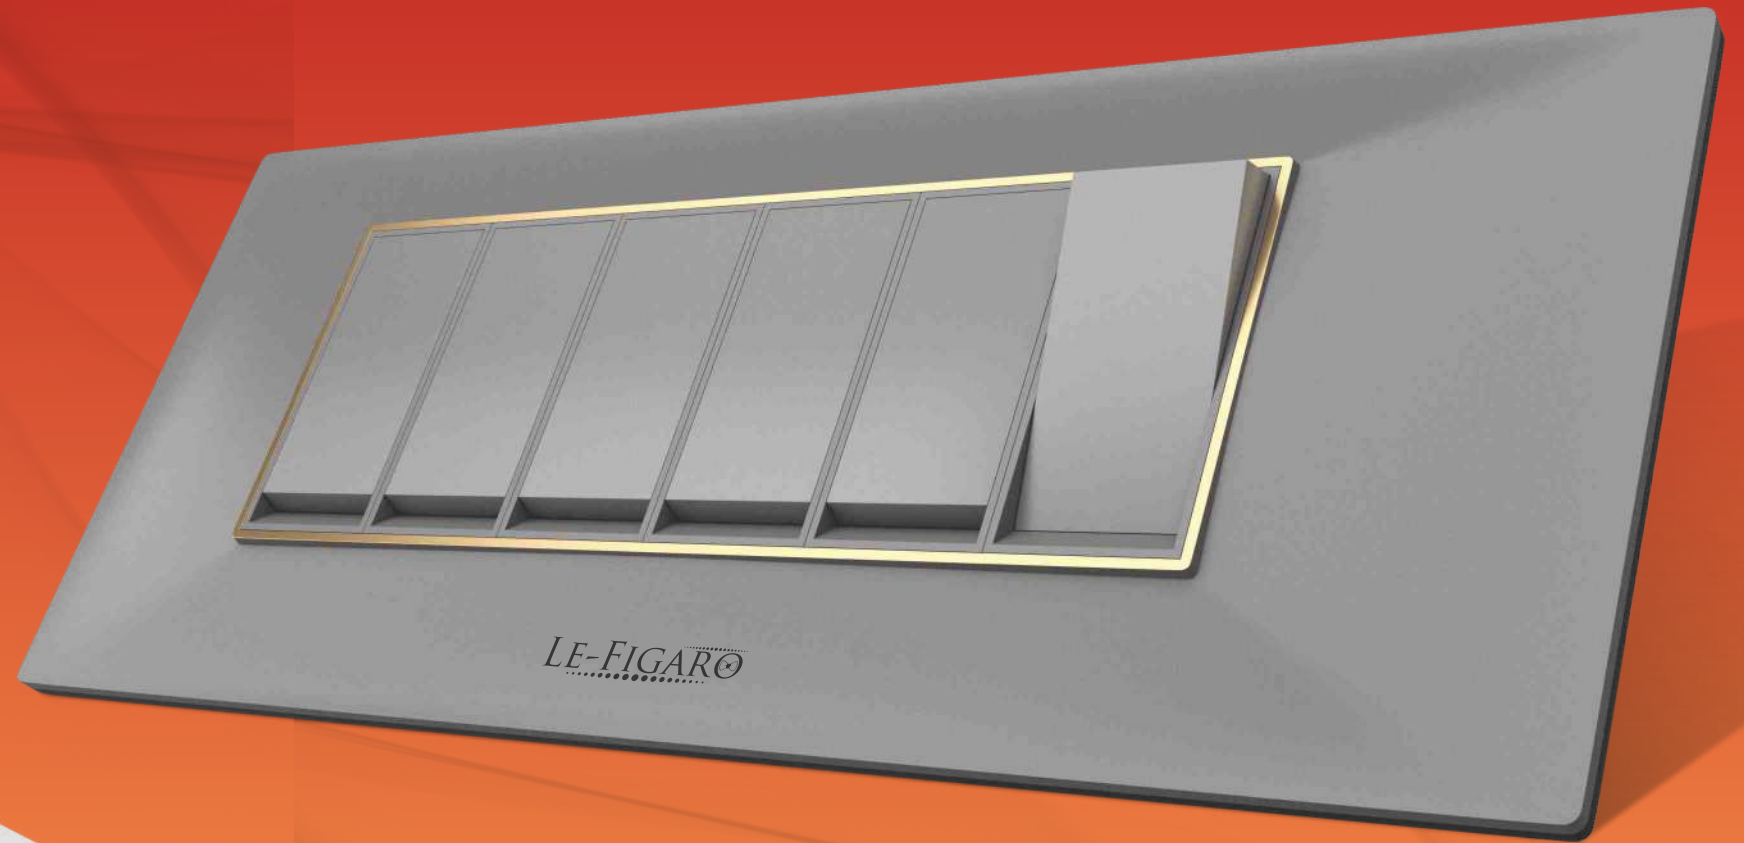

Outer shield to operate switch in which we use fresh polycarbonate with finest & latest trends model

Inner additional shield is given for extra safety. It prevents the arcing from coming in contact with the front rocker. It also improves the sound of touch of the switch.

### SPECIAL FEATURES :-

**SUN MODE** : 24 Hours light would work as somebody passes by, and as he leaves light would switch -off.

**MOON MODE** : The light would work at night and if somebody passes by, it will glow and as he leaves light would switch - off.

On day light the light would not function.

This product is based on intelligent control technology It has a switch inside which intelligently control the light . The product is 90% energy-efficient then any normal product, more durable & reduces the cost of electricity with high efficiency & environmental protection .

Applicable to hotel, stair passageway, corridor, balcony, garage, entrance garden and other place requiring automatic illumination.

**OPPOE**  
A Brighter View
